

CALERA WINES

CALERA MT. HARLAN CHARDONNAY

MT. HARLAN • CALIFORNIA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

The Estate

Calera Wine Company is renowned for producing site-driven wines from the high-elevation Mt. Harlan AVA, with a long-standing focus on Burgundian varietals. The estate's limestone-rich soils and cool climate contribute to wines of structure, longevity, and distinctive character.

Wine Making

Estate-grown Chardonnay is harvested from limestone-rich vineyards at elevation on Mt. Harlan. Fermentation takes place in oak barrels, followed by aging on the lees to build texture and complexity while preserving balance. The winemaking approach emphasizes minimal intervention, site expression, and a Burgundian sensibility rather than overt ripeness.

Food Suggestions

This Chardonnay pairs beautifully with roasted chicken, lobster, and scallops, as well as creamy pasta and risotto dishes. It also complements soft cheeses and dishes with buttery or nut-driven components. Its balance of richness and acidity makes it a strong option for refined, food-driven menus.

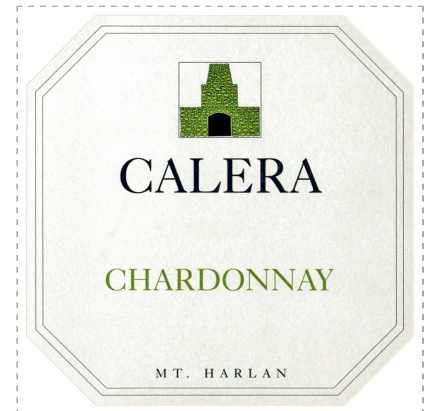

TASTING NOTES

This Chardonnay opens with aromas of ripe pear, baked apple, and lemon curd layered with subtle notes of toasted hazelnut and vanilla. On the palate, it is medium- to full-bodied with a creamy, integrated texture balanced by bright acidity. Flavors of orchard fruit, citrus zest, and gentle baking spice unfold gradually, showing both richness and restraint. A distinct mineral undertone adds tension and precision through the mid-palate. The finish is long, elegant, and quietly powerful.

Chardonnay grape blend.
