

LIFEVINE

LIFEVINE CALIFORNIA CHARDONNAY

CALIFORNIA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

Estate

We wanted to produce a wine that fits your lifestyle. We wanted a wine that believed in purity and transparency. We wanted a wine that delivered excellent taste. That is why we created Lifevine. We are committed to the highest level of transparency because we believe you should know what's in your wine. Beyond low sugar, wine should be pure and free of harmful toxins and pesticides, without compromising quality or flavor.

Winemaking

They ensure every one of our wines must deliver the highest level of purity and delicious taste. Each step from the soil to the bottle is handled with care and craftsmanship to ensure that the wine you drink is just wine – the way mother nature intended.

Food Suggestions

Pairs well with pork, rich fish such as salmon and tuna, poultry, and vegetarian dishes.

TASTING NOTES

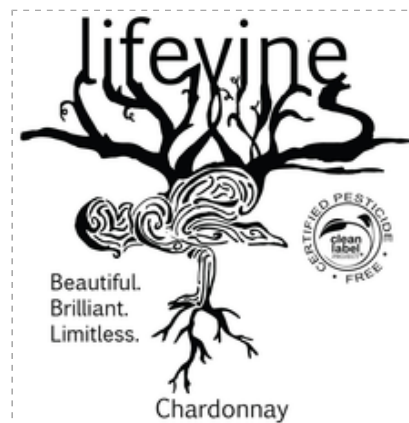

The nose is fresh and focused with loads of golden apple and honeydew melon. Secondary fruit flavors of nectarine, lemon, and peach skin offer added complexity to the nose. The palate shows layers of ripe pear and apple along with tropical fruit flavors of pineapple, guava, and passionfruit. While this wine is more driven by fruit, there is a subtle hint of mineral on the palate that adds a nice accent and bright finish.

100% Chardonnay grape blend.

This wine contains allergens, sulfites.
