

MUREDA

MUREDA 'ORGANIC' VINOS DE LA TIERRA SAUVIGNON BLANC

VINOS DE LA TIERRA • CASTILLA-LA MANCHA • SPAIN • EUROPE

TECHNICAL DETAILS

The Estate

Mureda is a family-owned winery boasting the largest organic vineyard surface in the world with over 1,200 hectares (3,000 acres) planted. As an official organic wine grower, Mureda's vines are not exposed to any chemical pesticides, herbicides or fertilizers, which yields clean and healthy wines, modern in style with just a touch of real oak to add complexity and elegance without sacrificing fruit or personality.

Wine Making

The nearly 1,200 hectares that make up the Mureda lands are framed between the Campos de Montiel, the Sierra de Alcaraz, and the Campos de Calatrava, a beautiful setting that is the cradle of the history of Spain, and inspiration for numerous cultural manifestations.

Food Suggestions

Pairs well with shellfish, vegetarian dishes, and goat cheese.

TASTING NOTES

Herbaceous lime aromas devolve to smell like Mr. Clean cleanser. A wide body with nothing in the center and green flavors of banana and bell pepper fail to click at a level above acceptable.

Sauvignon Blanc grape blend.

This wine contains allergens, sulfites.
