LIFEVINE

LIFEVINE CENTRAL VALLEY PINOT NOIR

CENTRAL VALLEY • CHILE • SOUTH AMERICA

TECHNICAL DETAILS

Estate
We wanted to produce a wine that fits your lifestyle. We wanted a wine that believed in purity and transparency. We wanted a wine that delivered excellent taste. That is why we created Lifevine. We are committed to the highest level of transparency because we believe you should know what's in your wine. Beyond low sugar, wine should be pure and free of harmful toxins and pesticides, without compromising quality or flavor.

Winemaking
They ensure every one of our wines must deliver the highest level of purity and delicious taste. Each step from the soil to the bottle is handled with care and craftmanship to ensure that the wine you drink is just wine – the way mother nature intended.

Food Suggestions
Pairs well with beef, veal. game, deer, and poultry dishes.

TASTING NOTES

The color is dark red in the center fading to a granite color, with a slight pink on the outer rim. It is bright and shows no signs of sediment or particles. Scents of cola, sassafras, mushroom, mineral, and spice lead into the fruit flavors of dark cherry, ripe raspberry, and wild red plums. The fruit is ripe, but also slightly reserved. The fruit spice balances with the oak spice of vanilla, cinnamon, coriander, and char. A slight stem or tree bark influence adds to the earth's components and lingers on the finish. Hints of fresh red flowers and wet dark potting soil come through at the end of the aromatic journey. The structure is firm and detailed with lifted acidity and structured tannin. The wine shows grip today, but this will soften with time in the bottle.

Pinot Noir grape blend.
