

LIFEVINE

LIFEVINE COLUMBIA VALLEY RED BLEND

COLUMBIA VALLEY • WASHINGTON • UNITED STATES • NORTH
AMERICA

TECHNICAL DETAILS

Estate

We wanted to produce a wine that fits your lifestyle. We wanted a wine that believed in purity and transparency. We wanted a wine that delivered excellent taste. That is why we created Lifevine. We are committed to the highest level of transparency because we believe you should know what's in your wine. Beyond low sugar, wine should be pure and free of harmful toxins and pesticides, without compromising quality or flavor.

Winemaking

Harvested mid-October, organically farmed fruit picked and destemmed, Merlot and Cabernet Sauvignon were fermented separately in stainless steel tanks at cool temperatures to ensure extraction of color and aromatics. We achieved optimal ripeness in the fruit during this relatively warm growing season with nice cool nights to maintain acidity. All the lots were fermented in upright stainless-steel fermenters with PDM yeast, with 100% malolactic fermentation was completed in stainless steel tanks.

Food Suggestions

Pairs well with beef, pasta, veal, and poultry dishes.

TASTING NOTES

Lifeline Red Blend is made with Organic Grapes, has Zero Sugar per serving and is Certified Pesticide Free. Upon tasting, Black cherry gives way to blackberries, rich chocolate mousse and mint. The finish lingers on ripe fruit that fades into the warmth of milk chocolate.

A grape blend of Merlot and Cabernet Sauvignon.

This wine contains allergens, sulfites.
