

JACKSON HOLE STILL WORKS
JACKSON HOLE STILL WORKS
'GREAT GREY' GIN

WYOMING • JACKSON HOLE • USA • NORTH AMERICA

TASTING NOTES

Great Grey Gin is a truly handcrafted, ultra small batch spirit, distilled from Wyoming farmed grains. Using a unique combination of steeping and vapor infusion, Great Grey is distilled to reveal the delicate and smooth potential of what this classic spirit can be. Our botanical blend provides a slight twist to the typical London Dry style, yielding perfectly balanced hints of citrus, spice, and fresh floral notes in conjunction with the traditional juniper and coriander essences. Enjoy Great Grey up with a twist, in a classic G&T, or however your heart desires. Naturally gluten free.
