

CRATER LAKE RESERVE VODKA

OREGON • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

Crater Lake Vodka—crafted with pure Cascade Mountain water and filtered ten times through charcoal and crushed lava rock—produced one of the smoothest vodkas in the world. That was, until Batch No. 333 happened.

TASTING NOTES

Mistakenly left to filter over 100 times, the result was an extraordinary vodka with a rich spring water-like sweetness and a crystal clear finish. Today, we celebrate this happy accident with our Crater Lake Reserve Vodka, an exquisite vodka for the true connoisseur. Unmatched in purity and smoothness. Perfectly pristine.
