LIFEVINE CALIFORNIA SAUVIGNON BLANC

CALIFORNIA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

Estate

We wanted to produce a wine that fits your lifestyle. We wanted a wine that believed in purity and transparency. We wanted a wine that delivered excellent taste. That is why we created Lifevine. We are committed to the highest level of transparency because we believe you should know what's in your wine. Beyond low sugar, wine should be pure and free of harmful toxins and pesticides, without compromising quality or flavor.

Winemaking

They ensure every one of our wines must deliver the highest level of purity and delicious taste. Each step from the soil to the bottle is handled with care and craftsmanship to ensure that the wine you drink is just wine – the way mother nature intended.

Food Suggestions

Pairs well with shellfish, goat cheese, and vegetarian dishes.

TASTING NOTES

You will experience aromas of floral, green melon and dry herbal notes typical of the warmer growing region of Sonoma Valley. Flavors of ripe mandarin and grapefruit lead to notes of papaya, kiwi, and jasmine. Finishing with a sense of minerality and crisp acidity, this wine is totally dry and focuses on the grape varietal character without any malolactic ferment or oak complexities.

Sauvignon Blanc grape blend.

This wine contains allergens, sulfites.
