OAKVILLE VINEYARDS NAPA VALLEY CABERNET SAUVIGNON

NAPA VALLEY • CALIFORNIA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

The Estate

The Cabernet Sauvignon for this wine is sourced from The Pelissa Vineyard located in Oakville, Napa Valley. Nearly 70% of this 56.5-acre site is dedicated to Cabernet. However, the fruit produced from each planting is unique due to the differences in vine age, irrigation, trellising, clone, and rootstock.

Wine Making

Additionally, we have been able to identify and isolate high-quality sub-sections of specific blocks and harvest these separately. The oldest Cabernet on this vineyard was planted in 1998 and is dry-farmed. These mature blocks consist of clone BV-7 grafted to St. George rootstock. Our more recent plantings utilize the Ghost Block clone grafted to 3309C rootstock. This collection of differing Cabernet Sauvignon blocks planted provides the opportunity to blend an exceptionally well-balanced wine.

Food Suggestions

Pairs well with duck.

TASTING NOTES

This Cabernet Sauvignon offers a harmonious aromatic balance of rich dark fruit like black cherries and blackberries, with subtle notes of fresh roses, cassis, vanilla, and black pepper. Its first taste is a delightful match to the nose notes, and it offers a full-bodied mouthfeel with satiny tannins and vibrant acidity that help orchestrate this wine's complexity and long finish.

Cabernet Sauvignon grape blend.

This wine contains allergens, sulfites.
