# COOPERSTOWN SARATOGA

## 'VICTORY' VODKA

SARATOGA SPRINGS • NEW YORK • UNITED STATES • NORTH AMERICA

### TECHNICAL DETAILS

#### The Estate

Cooperstown Distillery produces Saratoga Victory Vodka using the historic and mineral-rich spring water that made Saratoga Springs famous worldwide. The brand celebrates American heritage and craftsmanship, combining premium wheat distillation with one of the country's most storied water sources.

#### Production Process

Saratoga Victory Vodka is crafted from 100% premium soft wheat and distilled no fewer than six times for purity. It is filtered through five feet of activated carbon to enhance smoothness and clarity. The vodka is proofed using naturally sourced Saratoga spring water, historically known for its mineral composition and purity. The result is a polished, ultra-smooth spirit designed for versatility.

#### Serving Suggestions

Best served chilled or over ice to highlight its silky mouthfeel. It performs beautifully in classic vodka-forward cocktails such as a Martini or Vodka Tonic, where purity is key. Its smooth profile also makes it suitable for neat sipping or minimalist highballs.

### TASTING NOTES

The nose is exceptionally clean, offering subtle hints of vanilla and soft grain sweetness. On the palate, it is smooth and rounded, with delicate notes of cream, light coconut, and faint citrus lift. The texture is silky and refined, with no harsh edges. A gentle sweetness balances the neutral profile, adding approachability. The finish is crisp, clean, and lingering with a soft wheat fade.
