

LOONER SODAS

LOONER GRAPE 10MG

MINNESOTA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

Production Notes

This hemp-derived THC beverage is formulated with fast-acting cannabinoids intended to provide a more predictable onset experience. The recipe is designed to emulate classic grape soda while maintaining balanced carbonation and drinkability. Production focuses on flavor consistency and approachable dosing for casual social occasions. Careful formulation helps integrate the THC component without affecting flavor clarity.

Serving Notes

Serve ice cold directly from the can for maximum refreshment and carbonation. It pairs naturally with casual social settings, outdoor events, and alcohol-free gatherings. For a nostalgic presentation, serve over ice with fresh grapes or a lemon twist garnish.

TASTING NOTES

Looner Grape 10mg opens with expressive aromas of classic grape soda, purple candy fruit, and subtle berry sweetness. The palate is bright and playful, delivering juicy concord grape flavors balanced by lively carbonation. Sweetness is noticeable but controlled, maintaining refreshment rather than heaviness. A subtle tart edge keeps the profile lifted through the mid-palate. The finish is smooth, fruity, and lingering with nostalgic grape soda character.

These items are only available to be sold in New Jersey.
